Kit includes instructions, wire and the following lost wax brass castings: cab hatch, turret cover, generator, whistle, pop valves, bell & bracket, number boards, marker lights, headlight, headlight bracket, boiler steps, inspection covers, air compressors, injectors, piping brackets, check valves, booster piping, pilot step & brace, air & signal hoses and coupler lift stanchions & bars.

CAL SCALE

Parts Shown Full Size

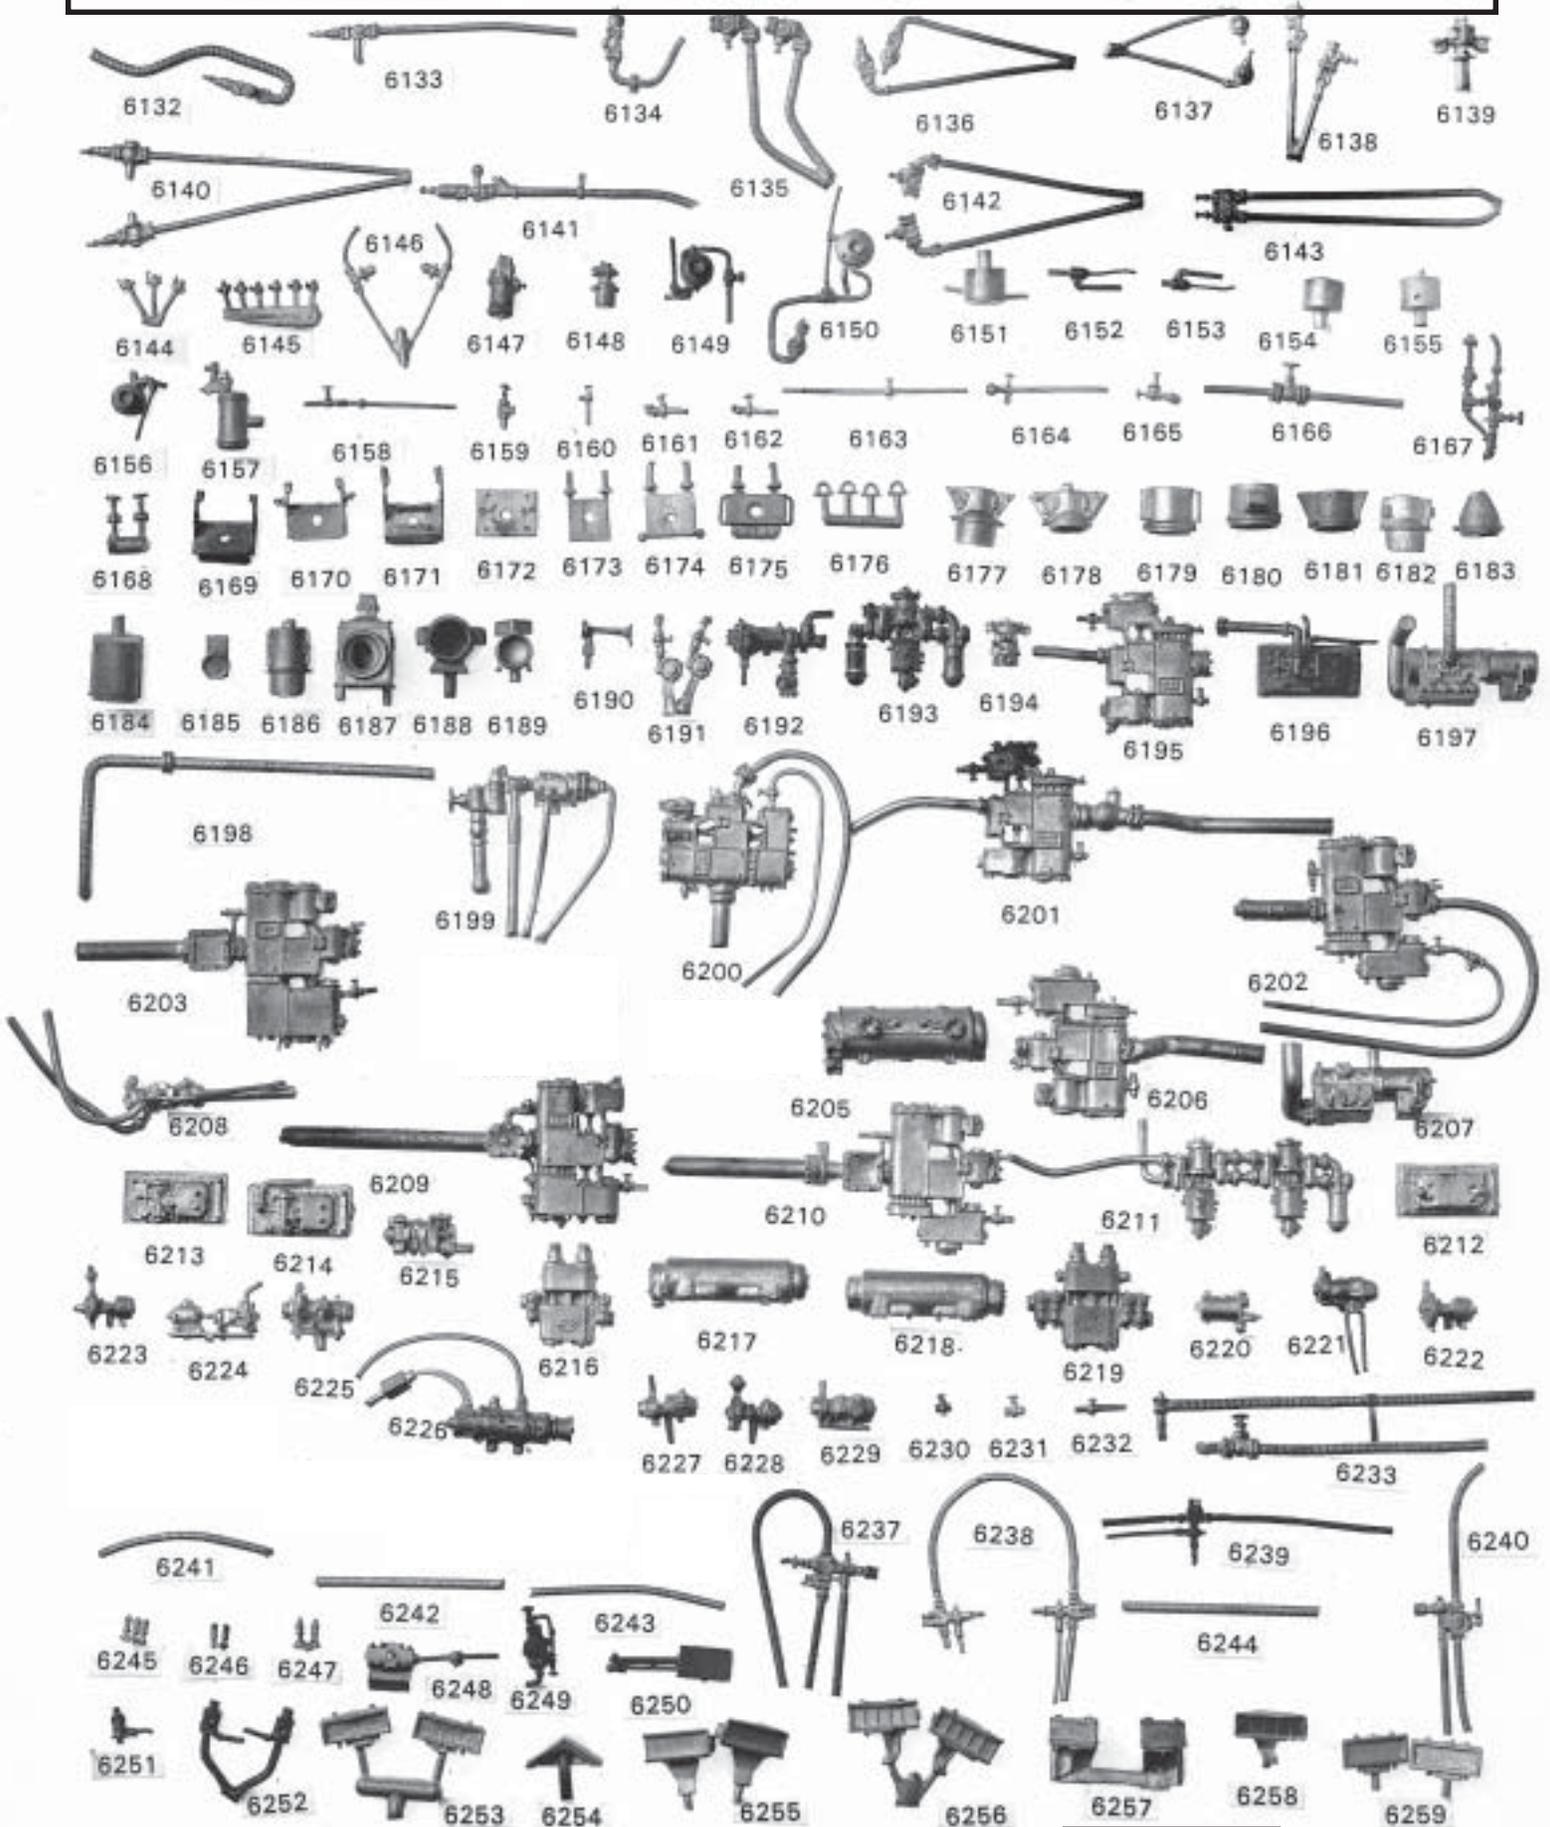

The 6000 series of Cal Scale parts are lost wax brass detail parts made for the foreign builders of brass locos. Many parts are variations of existing Cal Scale and Cary parts. When the supply is exhausted the part will be discontinued.
