

English's Model Railroad

Division of Bowser Mfg.

Special Announcement!

LONG ISLAND 101

PHOTO FROM: DIETRICH RYAN

In June of 2025, the employees of the New York & Atlantic Railway's Fresh Pond shops restored Long Island SW1001 #101 to its as-delivered appearance prior to being returned to the LIRR after a long-term lease. We are offering this locomotive as it appears today along with our upcoming release of SW1001s.

This locomotive will include all lighting applicable as well as ditchlights.
